Arabian Profile

Glass Reinforced Concrete (GRC)

Arabian Profile Co. Ltd was founded in 1985 and in the years since has built a solid reputation for quality, craftsmanship and innovation. Part of the GIBCA Group, the company's core business is the manufacture of aluminium, steel and composite panel cladding for roofs and facades. These panels are the product of many years' research and development and a number are exclusive to Arabian Profile (APL).

Arabian Profile

However, APL is not simply a manufacturer of cladding for the construction industry. The company also provides total design solutions and is often sought out by contractors facing unexpected or difficult architectural challenges.

Based in Sharjah since its inception, the company's products are used in a wide range of applications throughout the globe. From power plants in Vietnam to off-shore platforms in Norway – from Hong Kong to Pakistan to Africa – Arabian Profile has clients in more than twenty countries worldwide.

But first and foremost, Arabian Profile is a UAE national company, undertaking the bulk of its work in the Emirates and wider Gulf. Its cladding is seen on the region's finest shopping malls, hotels, business towers, sports stadia, private homes, palaces and mosques.

With rapid growth, a passion for innovation and commitment to excellence, the story of Arabian Profile is also the story of the UAE itself. And now, in the company's third decade, it eagerly prepares to write the next chapter.

▲ Culturtal Square Sharjah

Client	Government of Sharjah
Architect	Arab Eng Bureau
Main Contractor	Emirates Stones
Completed	1992

Arabian Profile has established a reputation for highly decorative architectural adornment. For Sharjah City Hall, they made extensive use of Glass Fibre Reinforced Concrete (GRC) with natural stone finish on parapets, screens, columns and other exterior elevations. Similar work was undertaken on the Sharjah Ruler's Office and Mosque, using 5,500m² of GRC and Glass Fibre Reinforced Polyester (GRP), the latter also being used for the domes of the Cultural Centre.

▲ Mercato Mall Dubai

Client	Mr. Abdul Rahim Al Zarouni
Architect	Décor Point
Main Contractor	Transemirates
Completed	2001

Arabian Profile carried out all exterior and ground floor cladding work on this ornately-designed building, using 8,500m² of Glass Fibre Reinforced Concrete (GRC) and Glass Fibre Reinforced Polyester (GRP).

Al Noor Mosque Sharjah

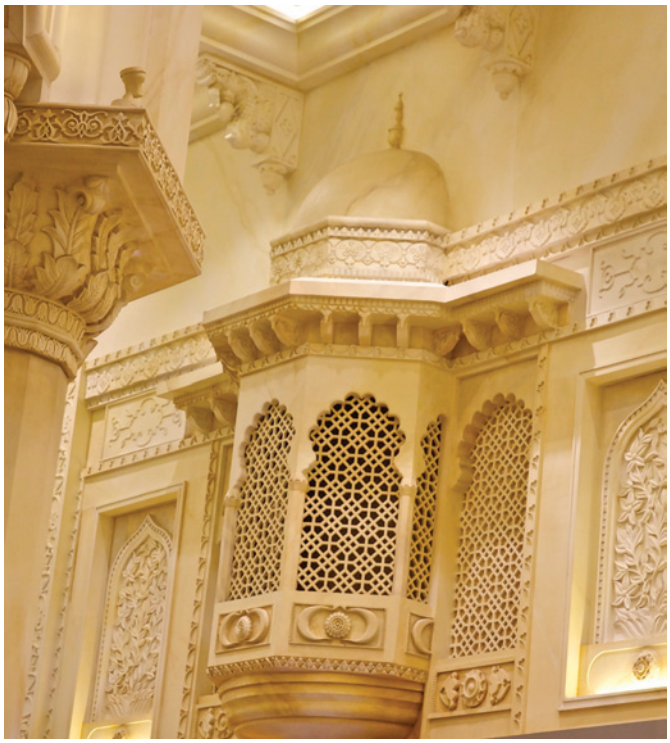
Architect	Architectural Academic Office
Main Contractor	United Engineering
Completed	2005

Arabian Profile carried out Glass Fibre Reinforced Concrete (GRC) works in natural stone finish on all external elevations including parapet, screens, window frames, cornices, false ceiling, minaret top and domes. A total of 5,500m² of GRC and Glass Fibre Reinforced Polyester (GRP) was used.

Ibn Battuta Shopping Mall Dubai

Architect	MTE Studios
Main Contractor	J.C Maclean
Completed	February 2005

Arabian Profile used Glass Fibre Reinforced Concrete (GRC) and Glass Fibre Reinforced Polyester (GRP) to make and install ornamental cladding, feature wall panels, column cladding and column bases and capitals, all featuring Indian architecture throughout.



Mina A'Salam Dubai

Client	Ruler's Court, Dubai
Architect	DSA International
Main Contractor	Buhaleeba Al Jaber
Completed	2003

Arabian Profile carried out a diverse range of works using 4,300m² of Glass Fibre Reinforced Concrete (GRC) and Glass Fibre Reinforced Polyester (GRP) to create a perfect natural stone finish on all exterior elevations including parapets, screens, window frames, cornices, false ceilings, brackets, columns and Pergolas.

Private Projects Middle East

Arabian Profile is proud to service many private clients with its full range of products and services developed over several decades. APL can provide customized cladding which brings a highly individual touch to any private residence. Its design team prides itself on finding innovative answers to difficult requests.

From villas to palaces – traditional or modern – from classic Arabian style to futuristic or fancy, Arabian Profile can provide intricate interiors, eye-catching external facades and any number of special features to stamp a property with the unmistakable mark of its owner.

Where **concept** meets **construction**

Arabian Profile (APL) is a pioneering, global leader in the Cladding Fabrication Industry and has an enviable reputation for bridging the gap between concept and construction.

The world of construction is always evolving and APL constantly strives to anticipate the fast-changing needs of the marketplace. APL's experience and bespoke design philosophy enables customised solutions to those clients pushing the boundaries of architectural design and technology.

Research and development is key and APL's use of the latest composite materials has led to development of lighter, more efficient cladding solutions. These exciting new products offer endless possibilities of shape, form and function and have been used on many of the worlds most iconic buildings.

Excellence in quality, innovation and craftsmanship are the foundation of APL's continued success and will remain its core values in pushing the architectural envelope.
